

If your baby was born early at 32 to 35 weeks of pregnancy AND is now 6 month old or younger AND born in May through February 28,2010. Contact Children's Memorial Hospital Study Nurse (773-880-8218) to see if your baby qualifies for the REPORT Study

The REPORT study will be looking at the risk and effects of RSV (a Respiratory Virus) among babies born early and does NOT involve any new medications or blood tests
